

# A2FO

Almitari Ankle-Foot Orthoses

*Designed to  
restore confidence  
in every step.*

## Built on science. Proven in motion.

### Superior Support & Stabilisation

- Stabilises the ankle joint for greater balance and control.
- Reduces ankle torque by up to 85%, relieving strain.

### Energy Efficiency in Every Step

- Reduces walking effort by **up to 20%**.
- Built for daily endurance, reducing fatigue.

### Real-Life Motion Restored

- Supports sit-to-stand, squatting, and stair climbing with ease.
- Moves with the body, not against it.

### Proven Durability

- Withstands **2 million flex cycles** at 25° forward flexion.
- Engineered for long-term performance in real-world use.

### Premium Materials

- Aerospace-grade carbon fiber blade for strength and lightness.
- Medical-grade cushioning for lasting comfort.

## Use Cases

Neurological (CVA)  
& MSK Conditions

Geriatric Mobility  
Enhancement

Rehab  
& Daily Living
